Dear Nurseryman:

Will see many of you fellows at Kansas City and Chicago. If you're driving through Missouri you will find our place real handy for a coffee or lunch break - we are just 20 minutes off Interstate 70 (turn north on State 79).

Joe Wayman and I will be in Kansas City; Wayne Lovelace and Chuck Talbot will be in Chicago.

Let me call your attention to "Convention Specials" attached:

- * Seedling liners - can still supply several. See list attached.
- * Field transplants - first time offered, several varieties that have been in field rows just one year. Fresh dug to order... nothing transplants and takes off so well. Several items suitable for immediate over-the-counter sale.
- Please note our heavy Taxus liners on the seedling page. We are now sold out of virtually all 9 to 12 in. sizes. From the same field rows we are still in good shape on 6 to 9 in. grade and they will cost you one-third less. Here is a Taxus liner that will give you a finished plant in a hurry.
- * B & B Evergreens - just a few items in medium and smaller sizes at popular prices. You'll find these sizes move much, much faster on the sales yard than heavier material!
- * Specimen Trees - for discriminating landscape jobs requiring caliper material. We can and do deliver anywhere in the country. Ask for quotes!

May 1962 bring you abundant health and more business than you can handle (looks like it might be just that kind of a year, too!).
